

iPROCURE

PROCUREMENT SIMPLIFIED

Powered By:  **BIGTRADER**

www.bigtrader.co

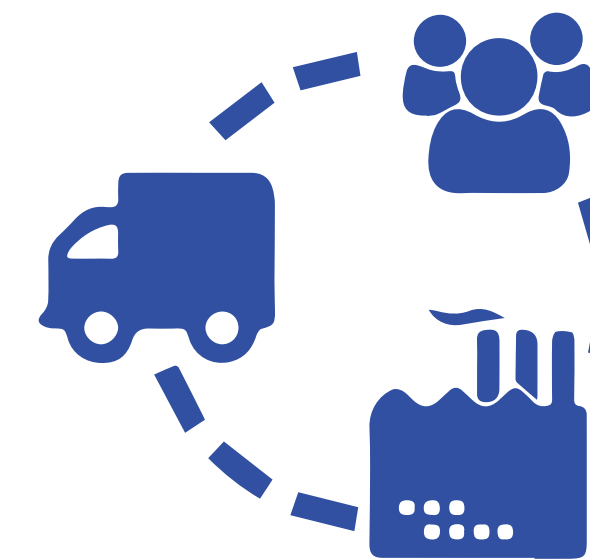

Introduction

iProcure.ai is a transformative AI-driven platform designed to revolutionize the procurement industry by offering two core solutions

B2B Marketplace and Product Discovery

A cutting-edge platform connecting MSME buyers and sellers with features inspired by leading platforms like Alibaba, Amazon, and Grainger.

Procure-to-Pay Solution

A comprehensive SCaaS (Supply Chain as a Service) platform that automates the entire procurement lifecycle. Powered by AI

Problem Statement

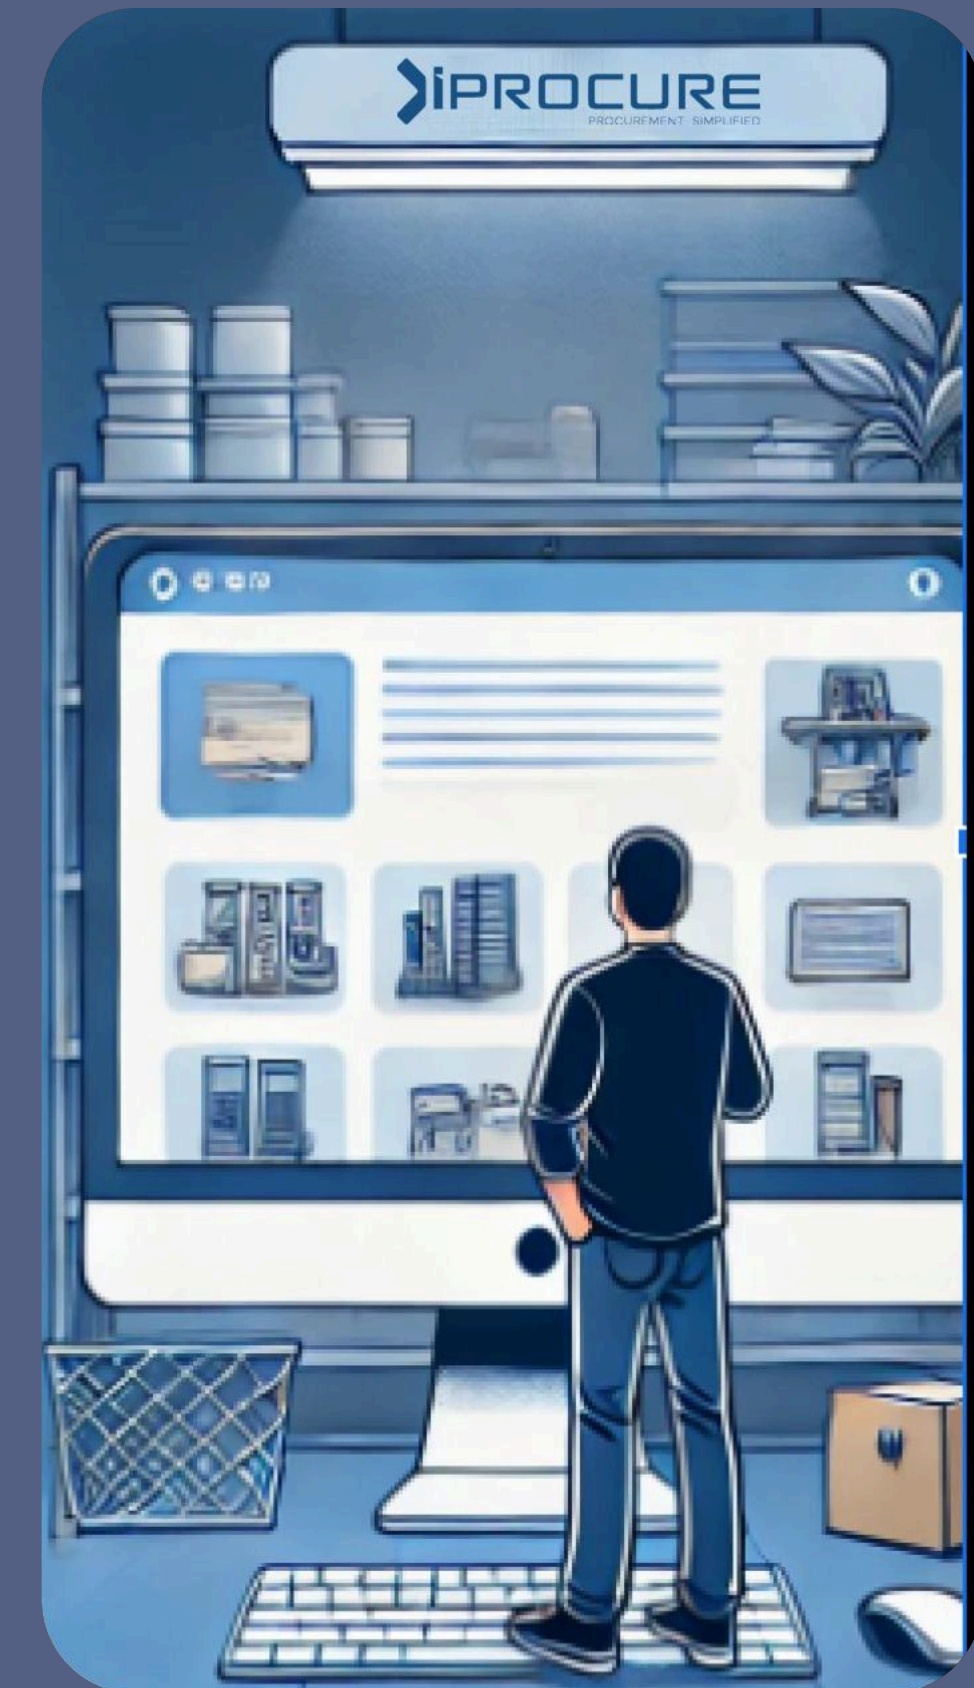

Challenges Faced by SMEs and MSMEs in Procurement

- **Product Discovery**
Difficult in finding right products with industry standard specifications
- **Procurement Workflow**
Delays in approvals and difficulties in tracking the procurement lifecycle
- **Lack of Data**
Lack of data insights for decision making and tracking
- **Silos**
Poor visibility for material received, inventory and payment updates

Product Discovery Challenges

- Difficulty in finding the right suppliers quickly
- Limited visibility into supplier offerings
- Inefficient search causing delays and higher costs

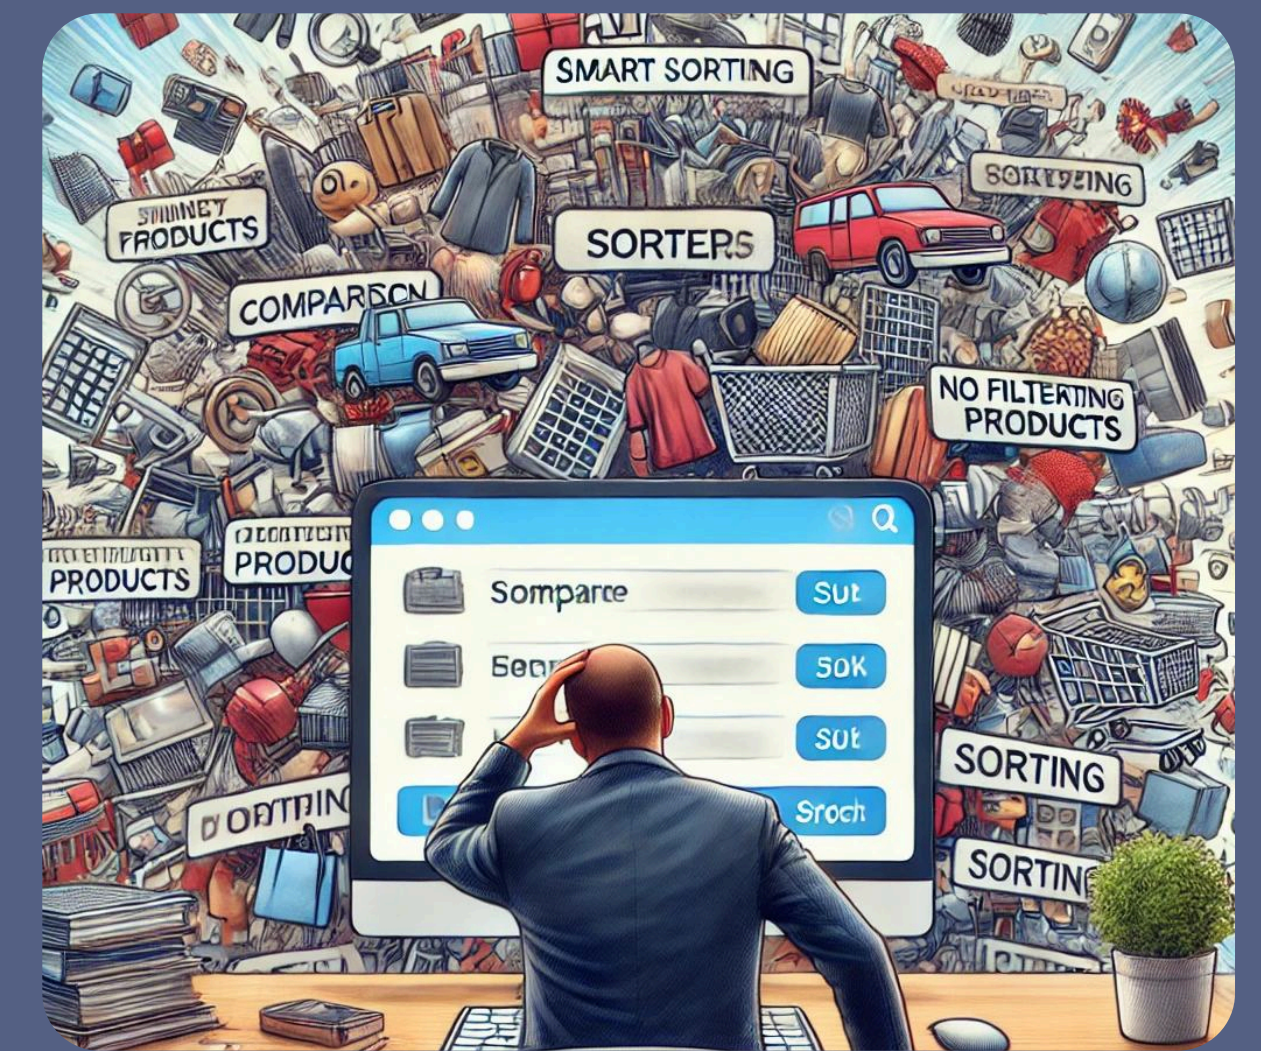

Lack of Data Challenges

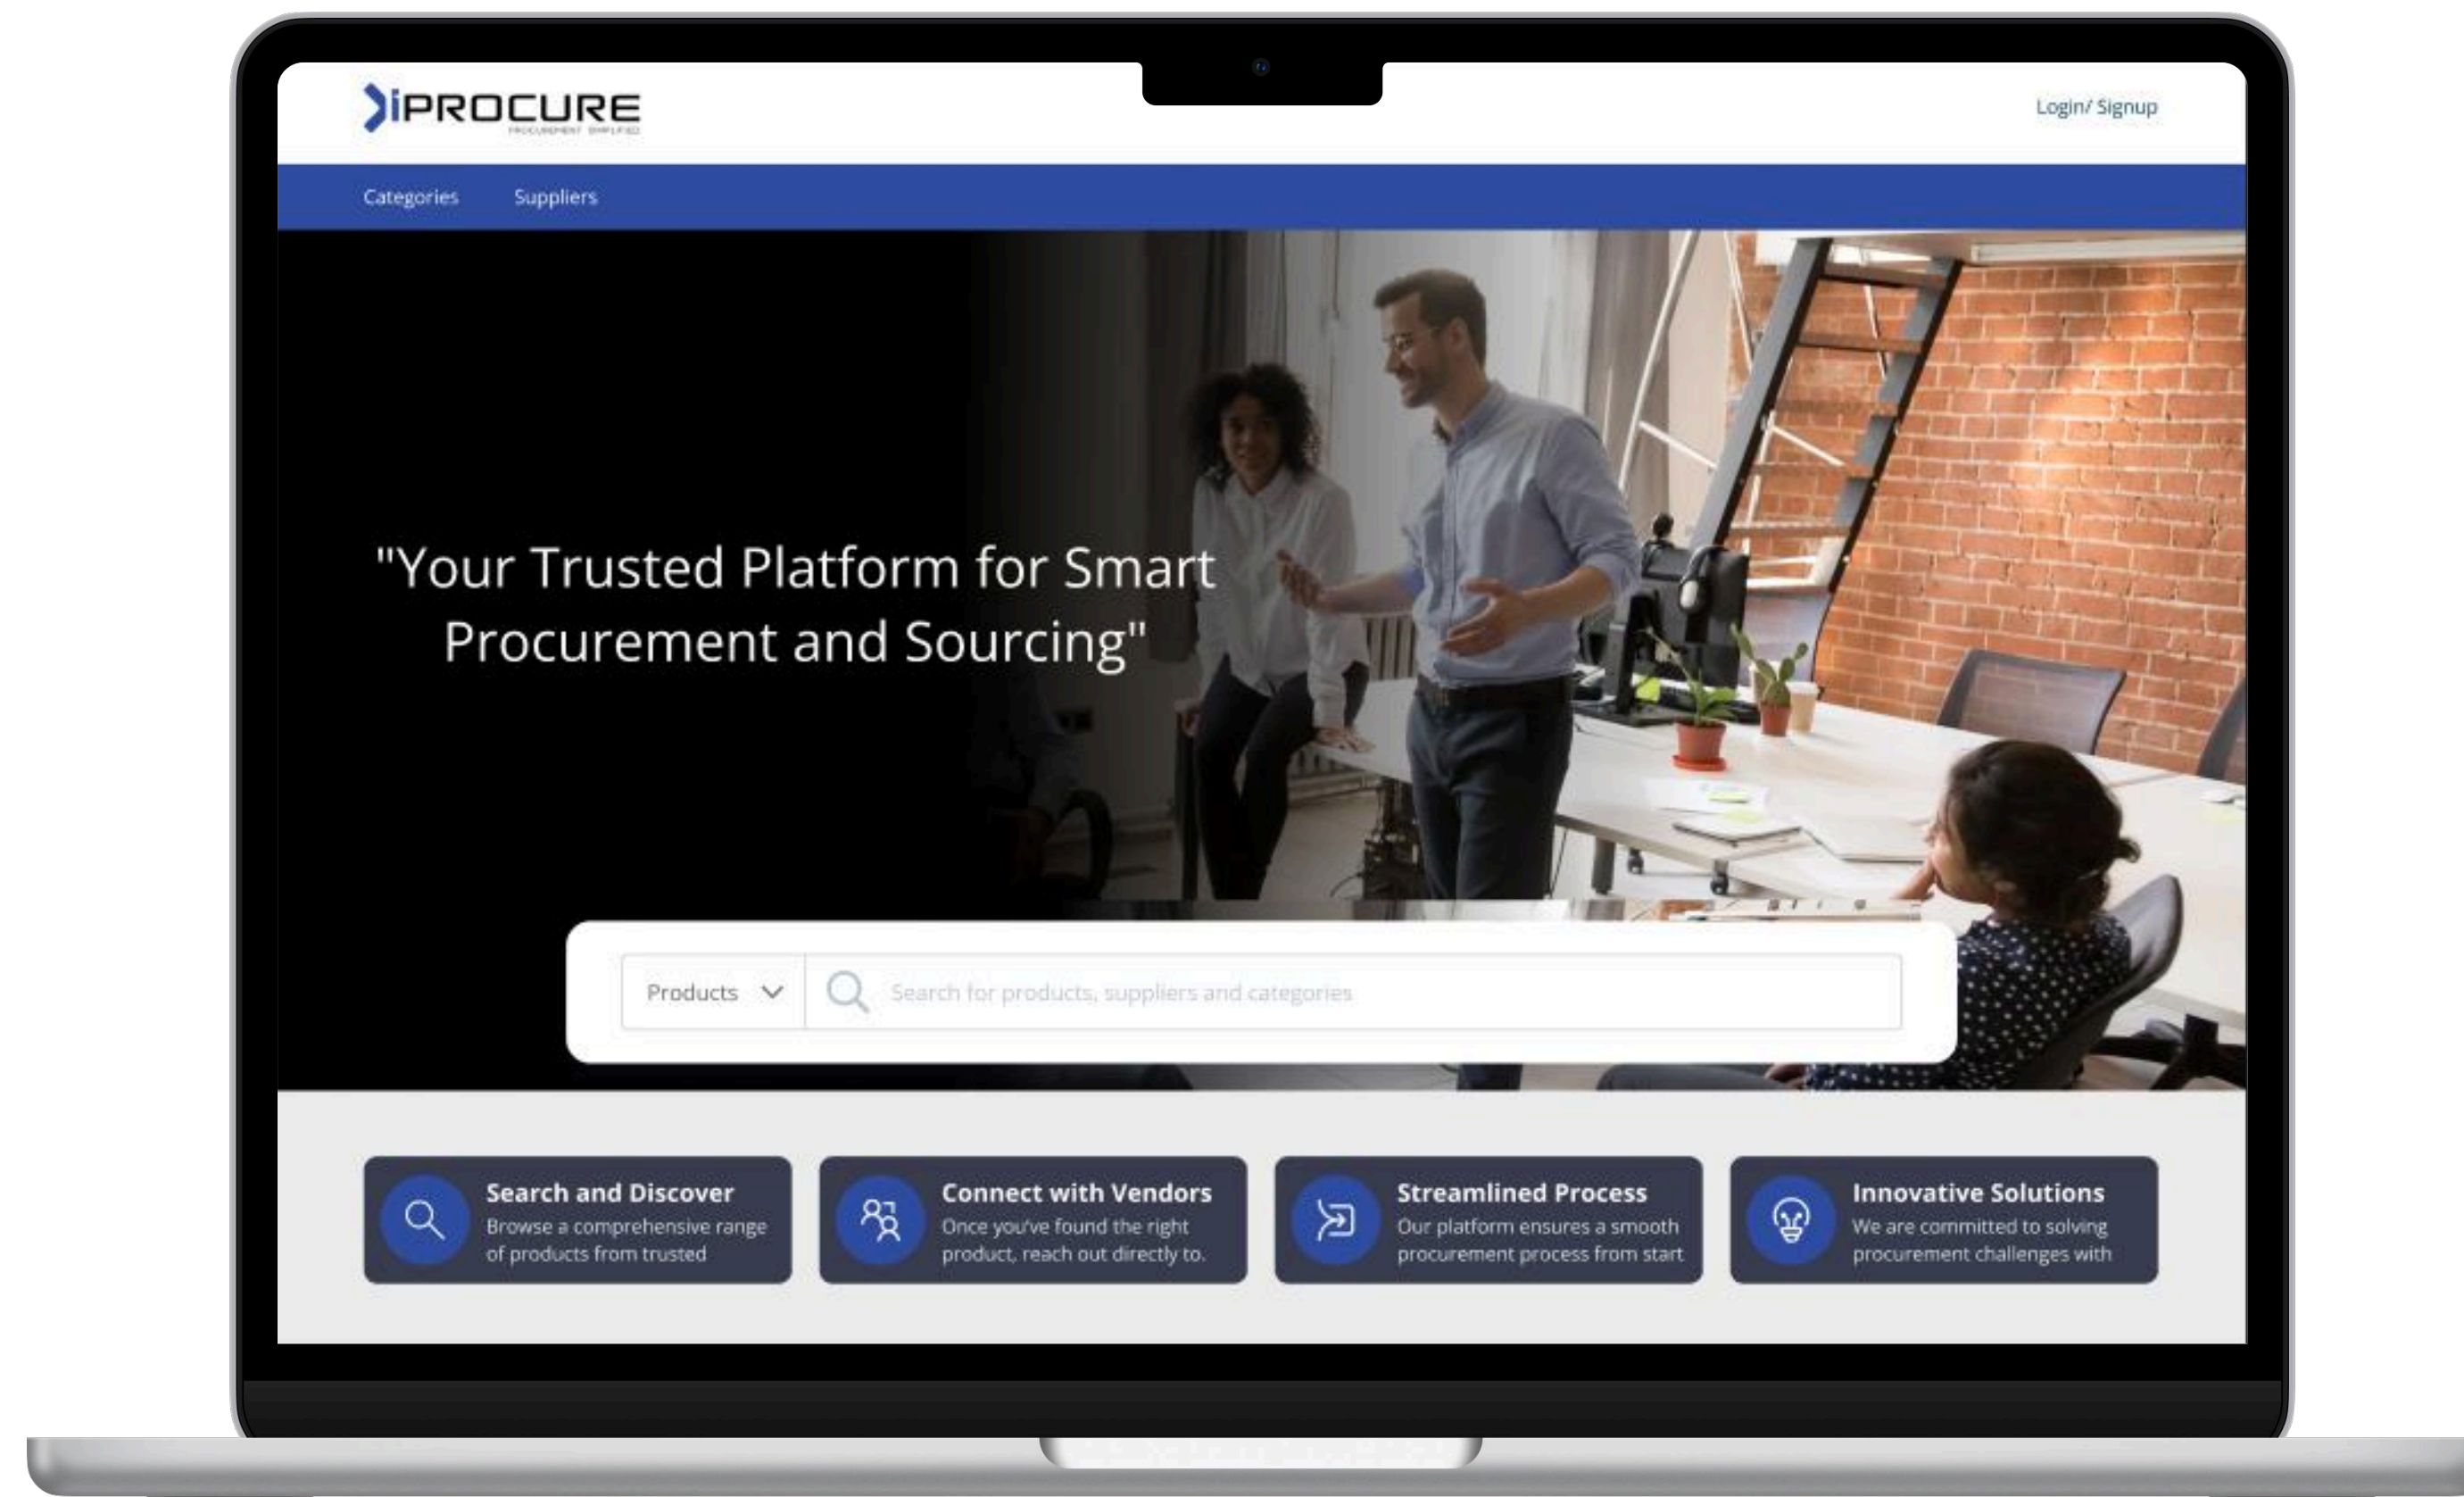

Missing supplier information impacts decisions

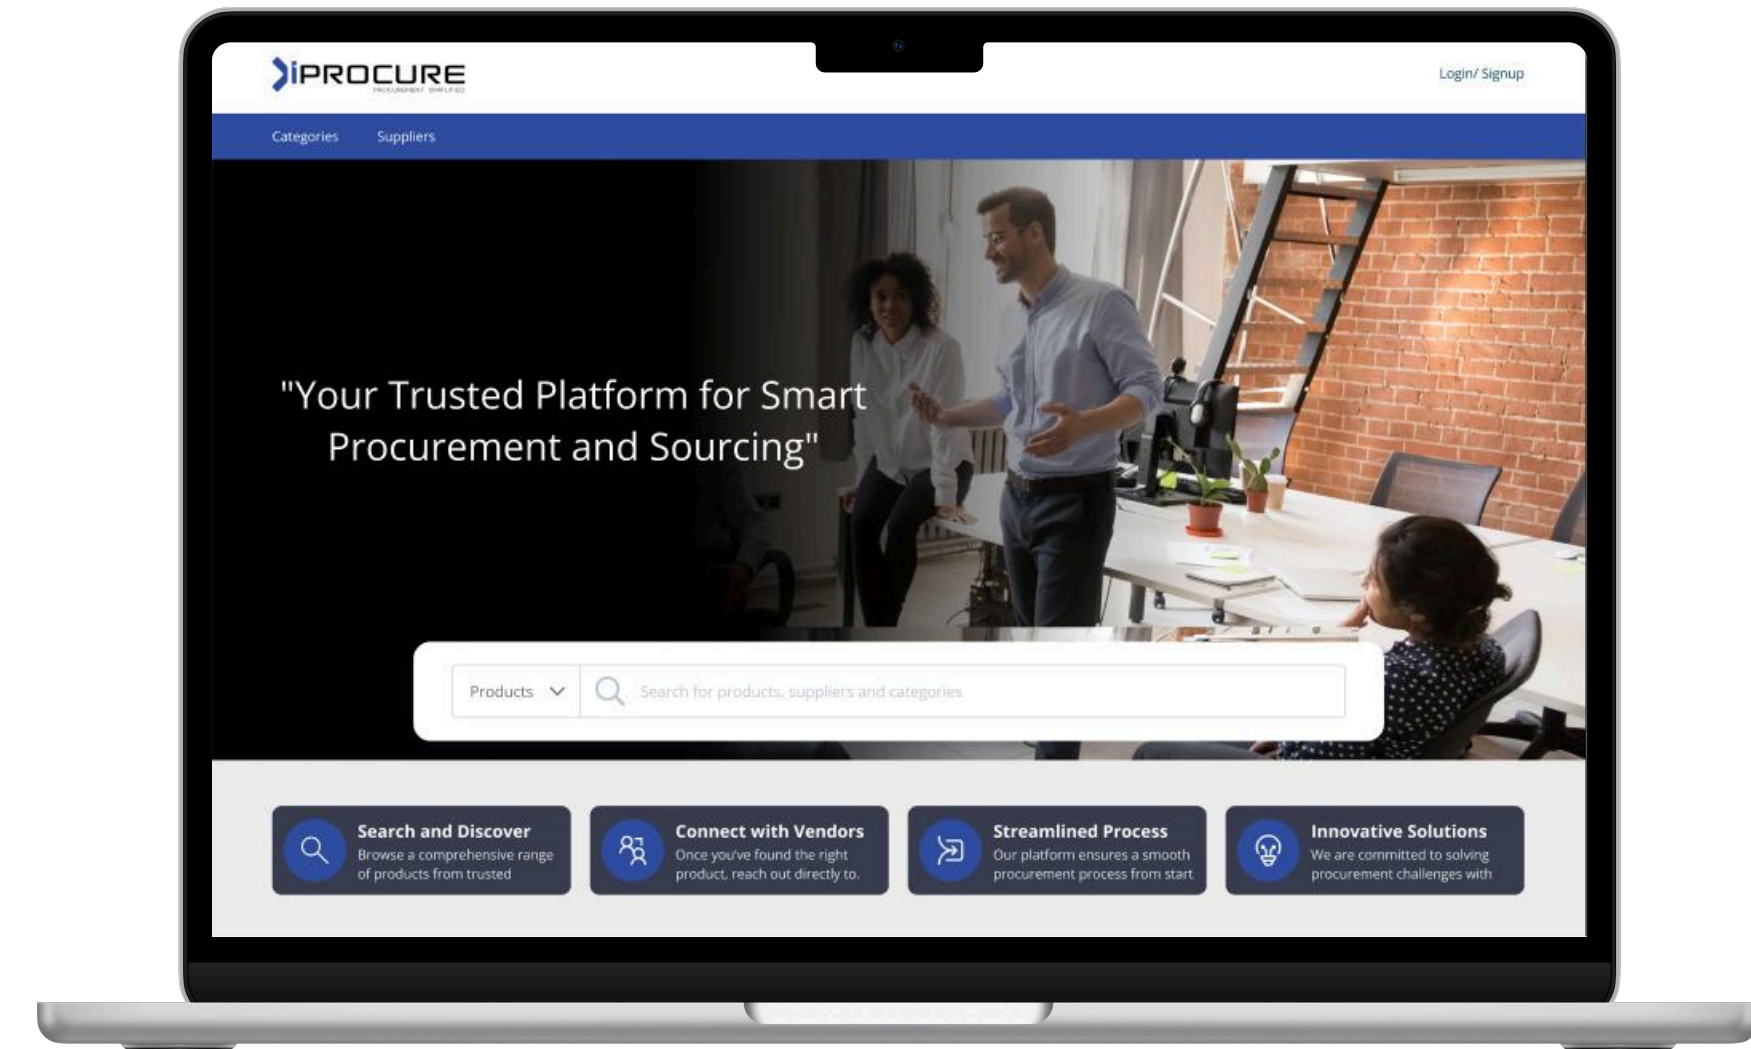

Incomplete product details hinder industry compliance

No smart comparison or sorting based on buyer needs

How iProcure.ai Solves These Challenges

Comprehensive Listing Support

We help you list all your supplier and product information efficiently.

Increased Visibility

Gain higher exposure and reach more potential buyers.

Your 24/7 Sales Partner

iProcure.ai works as your digital salesman at the cost of a coffee per day.

Seamless Onboarding

A straightforward process to get onboarded with minimal effort.

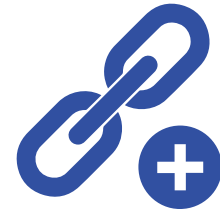

AI-Powered Data Enhancement

Our AI tools generate or complete missing product and supplier details.

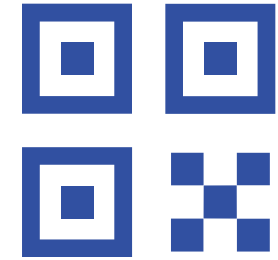

Boosted Enquiries & Leads

More accurate listings mean more inquiries and business opportunities.
